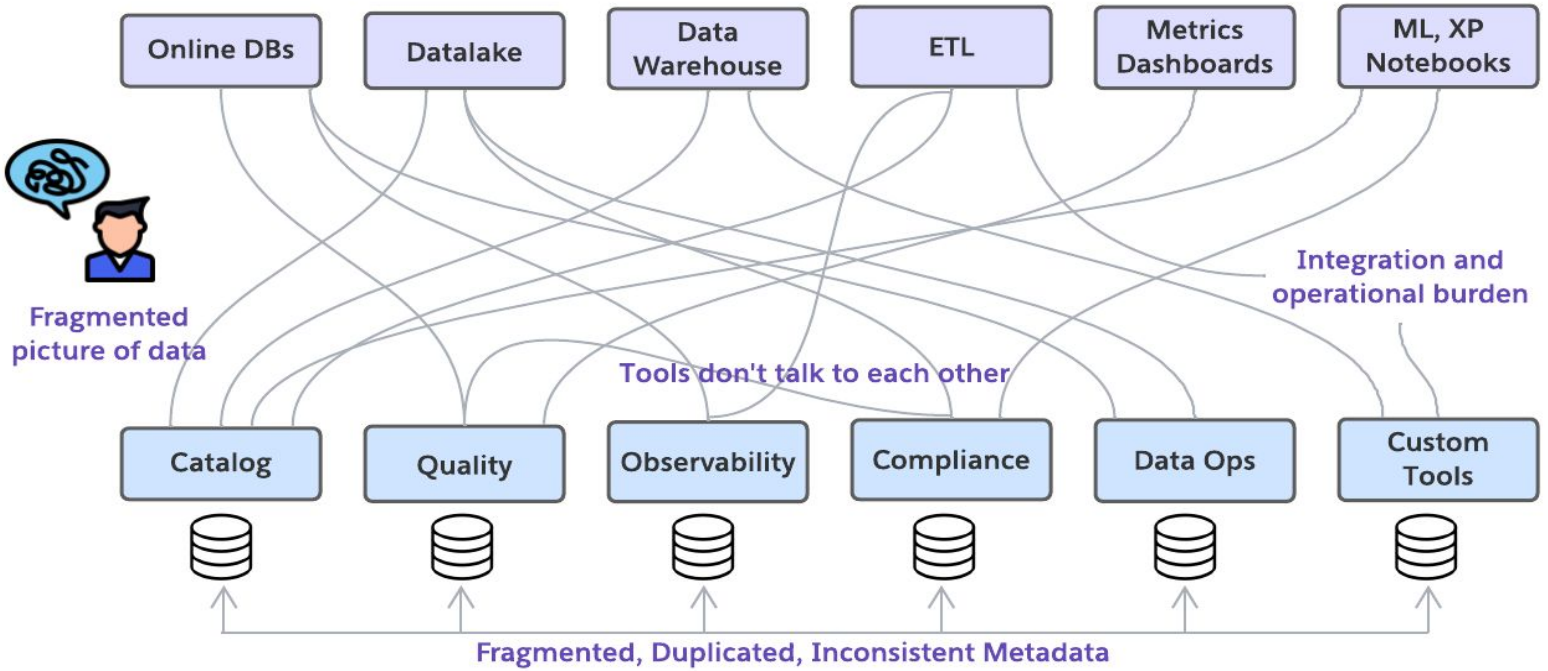
The State of Metadata



Unrealized Data Potential

Scattered and Siloed Data

- Hard to discover
- Tribal knowledge
- Fractured & Fragmented
- Lack of ownership

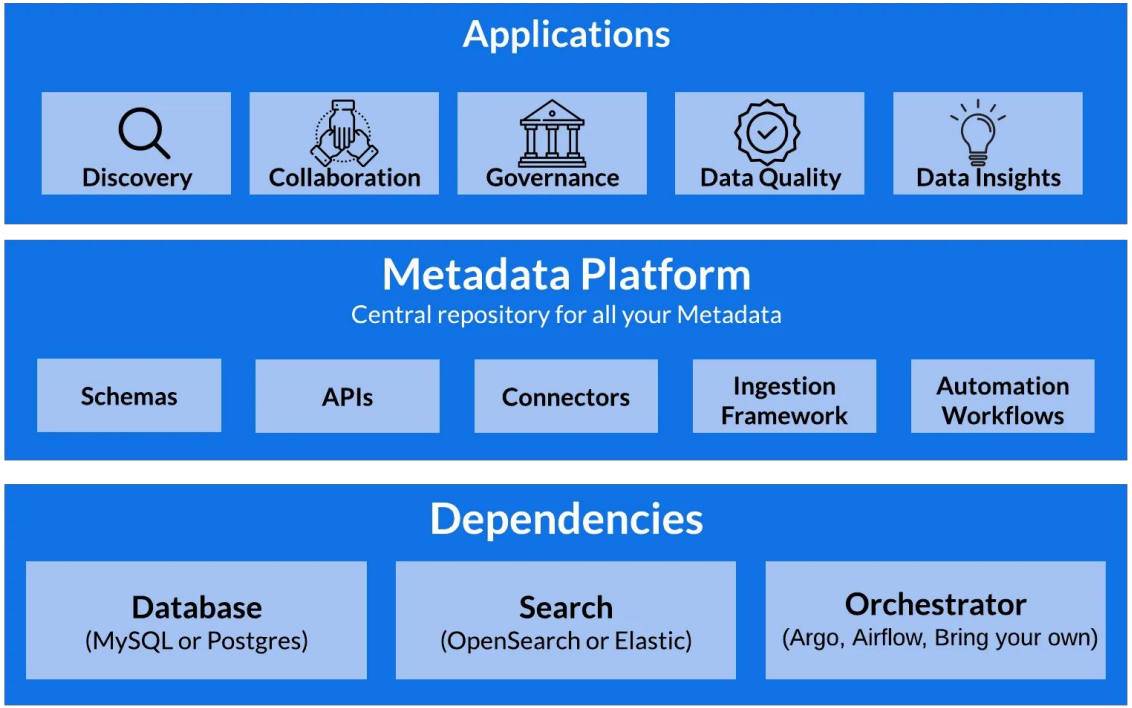
Collaboration Challenges

- People and tools disconnect
- Inconsistent processes
- Communication breakdown
- Poor productivity

Lack of trust in Data Quality

- Incorrect, incomplete and missing data
- Data breakdowns
- Missing alerts
- Fixing takes time!!

You need more than a Data Catalog



Demo Time 🎉

https://github.com/open-metadata/openmetadata-demo/tree/main/postgres

Thanks!
